# Where we served?

# Engagement Policy

## Fixed Cost Model

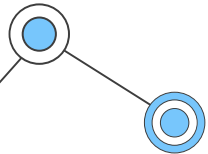

When your company has fix requirements for projects then we will execute the project on fix cost based model. Using this model , we ensures quality delivery of final project within the given time frame and client need to pay fixed amount for the project as per their mutual agreement.

## Hourly Model

When your requirements of software will change dynamically then we can go for the hourly based model

## Partner With Us

We can do partnership on the basis of your requirements where our highly professional and experienced developers will serve you better. With this we both can define our growth together.
